June 02, 2015

Dear Customer,

Saks Metering has been contracted by the Bethpage Water District to conduct a district wide water meter replacement project. Typically, the replacement of your water meter should take no more than an hour to complete.

There will be a temporary water disruption, so please make arrangements on your end to accommodate the replacement. In most cases, your water meter is located on the inside of your home - basement, crawl space, etc. The replacement of the water meter is of no cost to the resident.

Please feel free to contact our office, (516) 931-0093, if you have any questions regarding the above and I thank you in advance for your anticipated cooperation.

Sincerely,

Michael J. Boufis
Superintendent
Bethpage Water District
