

Saks Metering has been contracted by the Village of Greenwood Lake to conduct a village-wide water meter upgrade project. This project will be at NO COST to Village residents because it will be covered by a grant obtained by the Village. Typically, the upgrade of your water meter should take no more than a half hour to complete, so please make arrangements on your end to accommodate the upgrade. In most cases, your water meter is located on the inside of your home - basement, crawl space, etc. To make an appointment, please contact our offices at 914-502-3333 or email us at info@saksmetering.com. We would be more than happy to assist you in scheduling an appointment for a future date. Should you have any questions or concerns regarding this project, don't hesitate to contact the village or Saks Metering at anytime. We thank you in advance for your cooperation and apologize for any inconvenience.

FYI - Additional information regarding this project can also be found on the village website at http://villageofgreenwoodlake.org/events/Water_Meter_Upgrade.pdf.
