Re: Mandatory Water Meter Replacement Project

Dear Homeowner,

Saks Metering has been contracted by the Lacey Municipal Utilities Authority to replace the water meters that have been affected by the events of Hurricane Sandy. Typically, the replacement of your water meter should take no more than 30 minutes to complete. There will be a temporary water disruption, so please make arrangements to accommodate the replacement. In most cases, your water meter is located on the inside of your home - basement, crawl space, etc. The replacement of the water meter is at no cost to the property owner.

To make an appointment, please contact Saks Metering's office at (609) 318-8111 or email info@saksmetering.com. They would be more than happy to assist you in scheduling an appointment for a future date. Should you have any questions or concerns regarding this project, don't hesitate to contact the Lacey Municipal Utilities Authority or Saks Metering at anytime. We thank you in advance for your cooperation and apologize for any inconvenience.

Sincerely,

Lacey Municipal Utilities Authority
